

SATHISH R

PHP Laravel Full Stack Developer

Phone: +91 86818 21300 | Email: sathishrameshkumar2001@gmail.com | Location: Kanchipuram, Tamil Nadu, India

Portfolio: sathishrameshkumar.github.io/sathish-portfolio | LinkedIn: linkedin.com/feed

PROFESSIONAL SUMMARY

Professionally accomplished Full Stack Developer with 2 years of experience in PHP, Laravel, and ReactJS development. Proven track record of building scalable, secure, and high-performance web applications for HR, fleet management, utility billing, and enterprise communication domains. Adept at solving complex technical problems, writing clean and maintainable code, and delivering responsive, user-friendly interfaces. A fast learner who consistently focuses on performance optimization, code quality, and overall user experience.

TECHNICAL SKILLS

Languages & Frameworks: PHP, Laravel, JavaScript, ReactJS, React Native, Node.js, Express.js

Frontend: HTML5, CSS3, Bootstrap 5, Tailwind CSS, AJAX

Database: MySQL, SQL Server

Other: REST API Development, jQuery, DomPDF, WhatsApp API, SMS API, Email API, Socket.IO, WebSocket

Deployment & Tools: FileZilla, FTP/SFTP, Manual Server Deployment, Laravel Artisan CLI, Git

WORK EXPERIENCE

PHP Laravel Full Stack Developer

2024 - Present

SmartZen Solution Private Limited | Total Experience: 2 Years

- Design and develop scalable full stack web applications using PHP, Laravel, ReactJS, and MySQL/SQL Server for enterprise clients across HR, fleet management, and utility billing domains.
- Build and maintain RESTful APIs, integrate third-party services (WhatsApp API, SMS API, Email API), and implement secure authentication and approval workflows.
- Develop responsive, cross-browser front-end interfaces using Bootstrap, Tailwind CSS, JavaScript, and AJAX, ensuring consistent user experience across devices.
- Optimize database schemas and queries in MySQL and SQL Server to improve application performance and reporting efficiency.
- Collaborate with cross-functional teams to gather requirements, translate them into technical specifications, and deliver projects on schedule.
- Generate dynamic PDF reports and invoices using DomPDF, and build data grids and dashboards for real-time business insights.
- Manage end-to-end deployment of Laravel applications to production/staging servers via FTP/SFTP using FileZilla, including post-deployment tasks such as running Artisan commands (migrate, optimize:clear) to ensure smooth, error-free releases.

KEY PROJECTS

HR Payroll Management System *(Laravel, PHP, SQL Server, Bootstrap, JavaScript, AJAX, REST API, jQuery, DomPDF)*

Built a comprehensive HR Payroll Management System covering employee management, payroll processing, attendance and timesheet tracking, leave management, asset allocation, complaint handling, and shift management, with approval workflows, document management, and reporting.

Vehicle Management System *(Laravel, PHP, JavaScript, MySQL, SQL Server, Bootstrap, DomPDF)*

Developed a fleet management system covering vehicle registration, type/model management, condition tracking, active assignments, maintenance scheduling, and usage logs with responsive dashboards.

Gas Customer Management System *(Laravel, PHP, JavaScript, MySQL, SQL Server, WhatsApp API, SMS API, Email API)*

Built a customer billing and operations platform for a Dubai-based gas company, covering meter readings, invoice processing, emergency services, prepaid/postpaid handling, building management, and payment tracking and reporting.

License Hierarchy Management *(Laravel, jQuery, AJAX, SQL Server, PHP, Email API)*

Developed a license management system with dashboard monitoring, branch management, license creation and mapping, registration, and certificate generation, using dynamic parent-child hierarchy structures.

Gas Filling Management System *(Laravel, PHP, JavaScript, MySQL, AJAX, REST API)*

Built a system for customer operations, delivery notes, purchase management, invoicing, receipts, vehicle tracking, cheque approvals, driver reports, and tally export with automated workflows.

Meta WhatsApp API Platform *(PHP, Laravel, REST API, JavaScript, AJAX, WebSocket)*

Developed a WhatsApp Business communication platform supporting template creation and approval, real-time messaging, media templates, dynamic variables, Meta Cloud API sync, and delivery tracking.

Bulk WhatsApp Messaging Platform *(ReactJS, Node.js, Express.js, Socket.IO, MySQL, REST API)*

Developed a centralized Bulk WhatsApp Messaging Platform using ReactJS and Node.js that enables multiple business applications to send WhatsApp messages through a single REST API. Implemented QR code-based authentication, real-time session monitoring, contact management, bulk message scheduling, media sharing, and message delivery tracking. Built secure REST APIs with Express.js and integrated MySQL for managing users, sessions, contacts, and message history. Used Socket.IO for real-time QR code updates and connection status, and designed the platform to support multiple WhatsApp sessions, API key authentication, message queues, and integration with Laravel, PHP, and other third-party applications.

EDUCATION

Master of Computer Applications (MCA) - 81%

2021 - 2023

Thirumalai Engineering College, Kanchipuram, Tamil Nadu, India

Bachelor of Computer Applications (BCA) - 71%

2018 - 2021

Sri Sankara Arts and Science College, Kanchipuram, Tamil Nadu, India

Higher Secondary Course - 58.42% | SSLC - 75.6%

2015 - 2018

Bharathidasan Matric Higher Secondary School, Kanchipuram, Tamil Nadu, India

LANGUAGES

Tamil, English
